Re: Petition for Rulemaking

Dear FCC Commissioners and Wireline Competition Bureau staff,

*(This letter is filing a Petition for Rulemaking. We attempted to file online via ECFS (confirmation number 201526552792) but were informed that, due to the fact that a Proceeding Number has not been assigned yet, Petitions for Rulemaking must be submitted via hard copy.)*

My name is Nathan Empsall, and I am a senior organizer at Care2.com, a community of 27 million people standing together for good. I am filing this Petition for Rulemaking on behalf of Daniel Davis - an Oregon resident, former Army captain, and decorated combat veteran - and the 30,188 Care2 members who have signed his Care2 petition to the FCC.

**Mr. Davis, myself, and the 30,188 signers are calling on the FCC to create a short, three-digit phone number for suicide and crisis hotlines.**

Although all N11 numbers are in use to some degree, 611 or 811 are not officially assigned and could potentially be put into formal use for this life-saving purpose. While 611 is used broadly by carriers for repair service, in this era of smart phones, pre-programmed speed-dial numbers or apps can easily replace that function. Similarly, 811 is used by local exchanged carriers for business office use - a feature not enjoyed by other utility offices and, while important, not as important as saving lives. Another option that would likely not change any current exchange practices might be a vertical service code, similar to the well-known "star 69."

# care2 petitions

It has been suggested that the organizations currently maintaining "211" could work with crisis hotline operators to include suicide assistance as one of the community services offered on 211. This is a good idea and one we are exploring, but although it would be better than the status-quo, it would also be less permanent, national, and well-known as a dedicated number just for suicide and crisis hotline purposes.

Two books containing the names of the 30,188 Care2 petition signers accompany this cover letter. The text of the Care2 petition they signed is below. We would also like to call your attention to the personal comments that 614 of these signers included with their names, all of which are in the spreadsheet and six of which are included here below the petition text. These are very moving stories that highlight the importance of simplifying the suicide hotlines and providing faster help during crisis moments to suicidal veterans, teens, and other people.

\*\*\*

*Dear Commissioners,*

*We, the 30,188 attached signers of this petition, support the creation of a nationwide three-digit number for suicide hotlines.*

*22 U.S. veterans commit suicide every day, and it is the third leading cause of death among young adults aged 15-24. The FCC has the power to prevent some of these deaths -- and the suffering they bring to survivors -- simply by making the support these men and women need more accessible during their crisis moments. In the darkest times, every minute counts, but when a person is in crisis and desperate, it is nearly impossible to remember or even locate a long 800 number.*

*A simple three-digit number that everyone can remember is an easy solution, one that thousands of Americans need available right now.*

*Please help save these lives and take action today!*

*Sincerely,*

*The attached 30,188 names*

\*\*\*

Here are six of the many personal stories signers included with their names:

*Geraldine in NJ*

*Please do all you can for suicide prevention, our family lost a young man who had been a Marine to suicide and there isn't a day that goes by I don't think of*

him and just wish there had been a way to know he was even thinking about it - I would give anything to turn back the clock and be able to stop it.

*Laurie in IA*

In my life, I have lost two teen boys to suicide--one was 12 (not quite a teen) and was likely being bullied before anyone was paying attention to bullying. The other had just graduated; before leaving for college where he'd be discovered as a 'fraud' (reference to his many successes and popularity), he left a long letter admitting years of depression.... His suicide triggered deep depression in my daughter. Make it easier to reach out!

*Ann in OR*

As a social worker who works with Veterans and who has worked with the general population in mental health/healthcare services, I believe it is essential to create a simpler way for people to get help. Great idea!

*Phyllis in NY*

As the sister of someone who committed suicide, I suspect that having a quick 3-digit number to call with someone to talk to immediately could possibly have saved his life.

*Linda in FL*

I lost my 18-year old son to suicide. We must do whatever we can to help this from happening to another family.

*Norma in CA*

Yes, to this need. Please provide the suicide-prevention hotline with a three-digit quick dial number. Suicide is such heartache for those left behind wondering if there could have been something they could have done to prevent it. My own niece committed suicide at age 33, leaving a 3-year old son behind. How to explain this to him? She jumped off the Golden Gate Bridge. There has been a suicide preventive fence installed on the Golden Gate Bridge to prevent suicides there. We need to take quick action to prevent these tragically sad unnecessary suicides. Thank you.

Thank you for your attention to this petition. We look forward to the creation of a simple, three-digit phone number for suicide prevention hotlines.

Sincerely,

Nathan Empsall

Daniel Davis

					Caring human connection can keep a person in this world. Provide it and support life. A society that supports life gives hope and dignity to its members. This is a wonderful idea, simple, but it does require sufficient numbers of trained staff. Let's give it full support throughout the nation. It will provide jobs and save lives, too!
Leah	Sullivan	Pasadena	CA	UNITED STATES	
Carla	Cicchi	Placerville	CA	UNITED STATES	If a 3-digit hotline is possible and will make a big difference in helping people in need, then do it.
I	lum	Rancho Cucamonga	CA	UNITED STATES	Great Idea. Wish it was started many decades ago. It could have saved many lives.

					Yes, to this need. Please provide a suicide-prevention hotline with a three digit quick dial number. Suicide is such heart ache for those left behind wondering if there could have been something they could have done to prevent it. My own niece committed suicide at age 33 leaving a 3 year old son behind. How to explain this to him? She jumped off the Golden Gate Bridge. There has been a suicide preventive fence installed on the Golden Gate Bridge to prevent suicides there. We need to take quick action to prevent these tragically sad unnecessary suicides. Thank you.

Valerie	Johnston	San Diego	CA	UNITED STATES	There have been many times when I needed someone to talk to...I believe I'm still here because someone was there quickly.

Stephen	Gates	San Diego	CA	UNITED STATES	What a great idea. Wish I had thought of it. Suicide is a horrible shame of this country. Let's do all we can to prevent it. Scores of years of lives are being wasted with each suicide, primarily because of a simple chemical imbalance. Life is too precious to throw it away on stupid wars (and other battles), too.
Arlene	Cooper	San Francisco	CA	UNITED STATES	My nephew's older brother was bullied and tried to handle it alone! I was 3 thousand miles away when I heard his scream in my head and being yelling at my sleeping partners to stop doing that! A friend of ours who also has high sensory perception levels, told me it could be coming from thousands of miles away! Turned out it was, from the East Coast when I was on the West Coast! When you take care of a sister's child as a teenager, you care for it as your own! When that child dies, by taking his life you blame yourself! You could imagine how that crushed his mother! Therapy helps, however nothing can bring back a loss that great! A three digit number could have saved his life!
Michal	Lynch	Santa Barbara	CA	UNITED STATES	It would be so easy to remember!
G	Crusius	Santa Clarita	CA	UNITED STATES	We must have a 3 digit suicide help number and put it on billboards to inform everyone that help is one easy call away.
Elizabeth	Galarza	Signal Hill	CA	UNITED STATES	PLEASE SAVE OUR VETERANS AND TEENS...PERSONALLY I THINK THE 3 DIGIT NUMBER IS SOMETHING THAT WE SHOULD HAVE PUT IN PLACE A LONG TIME AGO.
GARRINE	PETERSEN	SUN VALLEY	CA	UNITED STATES	SOUNDS LIKE A GOOD IDEA, WHY NOT?
Monique	Lukens	Sunland	CA	UNITED STATES	Makes complete sense!
Rebecca	Parks	Sunnyvale	CA	UNITED STATES	Sounds like a very sensible idea.
flying	Huang	Sunnyvale	CA	UNITED STATES	The phone number '111' is easy and simple to remember. For saving life, it is the best number for Naitonal Suicide Prevention Lifeline!
Pollyana	Harmon	Torrance	CA	UNITED STATES	veterans are valuable asset for this country, we owe it to them to help them live a better life, they need the public's support and they so deserve it, considering the sacrifice all the service men and women give to protect our freedom.

Cheril	Eazell	Upland	CA	UNITED STATES	My nephew suffers with mental illness and lives in a another state. I know that he is depressed a lot and feeling alone. It worries me when I can't get in contact with him. Having a quick and easy number available for desperate people such as my nephew could save his life.
robin	lerner	Ventura	CA	UNITED STATES	This is one way we can really reach more people who need help.
nancy	deyarmie	WILLOWS	CA	UNITED STATES	Exactly. It's hard enough to try to reach out for help
Karen	Glasser	Woodland Hills	CA	UNITED STATES	I am a survivor after suicide, having lost my husband over 3 years. Please support this literal 'life-line'.
John	Moriarity	Aurora	CO	UNITED STATES	I have lost both my uncle and my cousin to suicide before I turned 10. I too was also suicidal after being bullied and everyone but my parents were ignoring it.
Patti	Lee-Crawford	Aurora	CO	UNITED STATES	My son's girlfriend just committed suicide. She was in process of waiting for help in therapy and the wait was too long.
Jahnavi	Stenflo	Boulder	CO	UNITED STATES	This is a very good idea! Let's do this!
CHERYL	ROBISON	Colo. Springs	CO	UNITED STATES	It this will save a life, get someone help or just give them time to think it threw, then it is a must do.
don	brenneman	colorado springs	CO	UNITED STATES	a simple thing to do to save lives.
Susan	Pernot	CORTEZ	CO	UNITED STATES	Saving lives is very important. Set up a a 3 digit number. ASAP
Jennifer	Brooks	Fort Collins	CO	UNITED STATES	I lost my former husband of 15 years and the father of my two children to suicide. I know he had considered suicide for many years as he fought the pain inside but something inside him had always prevented him from taking that final, irreversible, step. And then one day that thing inside failed him. My children were 8 and 9 years old at the time - they are now 11 and 13 and there is not an argument or drama that happens where I am not stricken by the fear that they might see their father's solution as a viable one for them. I do believe educating children and adults about the ease at which you could talk to someone anonymously by dialing 3 numbers could save lives.
William	Gerlach	Frederick	CO	UNITED STATES	This is an important public health issue that needs to be addressed. And all school principals have a responsibility to address this issue frontally and take action.

Mary	Donohue	Greenwood Village	CO	UNITED STATES	If it saves even one life, it's well worth the effort. What a great idea! Please get on it quickly, FCC.
Wanda	Johnson	Lakewood	CO	UNITED STATES	This sounds like a great idea!
diane	crawmer	LONGMONT	CO	UNITED STATES	People matter!
Jennifer	Cole	Longmont	CO	UNITED STATES	What a great solution!

Toni	Vala	Norwalk	CT	UNITED STATES	Please help save our veterans and our teens from suicide with a hotline with a three digit number.
Michelle	Beale	Oakdale	CT	UNITED STATES	This is a brilliant idea!! A very simple way to help so many! Thank you!
Christopher	Calise	Stamford	CT	UNITED STATES	We have to do something to bring down the number of young people committing suicide.
Ann.	Flynn	Westport	CT	UNITED STATES	It is simple to do....it's time we did concrete acts/projects to give back,to,those who did so much for us.
Grace	Adams	WILLIMANTIC	CT	UNITED STATES	Even if you use 911 as an all purpose emergency number, the police dispatcher asks what your emergency is and can easily transfer a call to the Suicide Prevention Lifeline number. Either that or use 211 as the all purpose number and let them sort out the reasons people call. In CT 211 is to find out what social service agency you need to turn to if you need help but it is not the sort of help police and fire departments deal with.
Russell	Craig	xxx	DE	UNITED STATES	Why not use 911 and provide the operators with a referral number to transfer the call to????? Keep It Simple, Stupid - KISS
eve-lynn	lespier	Astor	FL	UNITED STATES	make it easier for help not harder. people in this kind of stress have a hared time thinking straight as it is . help them help themselves and possibly save their lives !

Hunter	R	CORAL SPRINGS	FL	UNITED STATES	Oh my this is so directed to me as a retired Psychiatric Nurse Practitioner who dealt with many suicidal clients I can tell U the excess stress the GI is on results in PTSD and the delusional thoughts occur and one is to kill themselves this is also true with the stress of becoming and adolescent the body and physical changes, U only have to view the # of incidences to know this is a major problems and needs to be taken care of. Hunter PS-when in crisis please help anyone to dial the crisis hotlines.
Dandelion	Goodwin	DELAND	FL	UNITED STATES	Sounds like an easy enough thing to me if there is a 3 digit number not being used.
Phyllis	Dupret	Delray Beach	FL	UNITED STATES	This is really important for everyone to support.....
michele	sherriton	Hollywood	FL	UNITED STATES	Statistically viable!
Cindy	Kinkela	Lake Worth	FL	UNITED STATES	in Florida, the # for the suicide hot line is 211, which also handles abuse. Perhaps that# could be universal in the US.
John	Watt	Melbourne	FL	UNITED STATES	Seems like a reasonable response to me. This way many of us will be aware of an accessable means of helping others, should it become necessary.
Frank	Chi	Miami	FL	UNITED STATES	Great idea. They should also have a national ad campaign to make everyone aware of the new number.
Mary Ann	Andruscavage	North Miami Beach	FL	UNITED STATES	A three-digit hotline with the FCC and VA would be easier--like '111.'
Holly	Cooper	P C BEACH	FL	UNITED STATES	This is a very reasonable request and it makes a lot of sense! A number people can remember in times of need could save more lives!
Ulrike	White	Palm Beach Gardens	FL	UNITED STATES	This is a great and simple idea to help safe a life.
E.K.	Gardner	PALMETTO	FL	UNITED STATES	PLEASE! this is serious. Wake up the public to addiction & mental illness
Philippa	Campling	Parrish	FL	UNITED STATES	What a great idea! May people get support instead of killing themselves... Thank you for taking care!
D	GRAY	PINELLAS PARK	FL	UNITED STATES	A national simple number to use is an excellent proposal! Hope this gets addressed in a timely manner!
Sandra	Brady	Pinellas Park	FL	UNITED STATES	Sounds like a great idea!

Tom	Deuley	Port Charlotte	FL	UNITED STATES	I just lost a very close friend to suicide two weeks ago, and though it was not a surprise it was a bit of a shock when she had just told me 'everything is just fine' I think I did not read that close enough. Something needs to be done to give these people some help.
Karen	Howard	Port St Lucie	FL	UNITED STATES	We lose too many people to suicide. We need a simple way for people who are suffering to call a suicide prevention hotline. Remembering a long number is hard when you're depressed and suicidal. Programming the suicide prevention hotline number into your phone makes you feel like a total loser and you feel everybody knows you're suicidal if you do that. We need a simpler way. We need something like 111. We need a quick, easy to remember, 3-digit HELP ME BEFORE I KILL MYSELF number.
Linda K	Anderson	Punta Gorda	FL	UNITED STATES	I lost my 18 year old son to suicide. We must do whatever we can to help this from happening to another family.
Judith	Pastor	Rockledge	FL	UNITED STATES	Yes, definitely the need for a three-digit number is so obvious. Who could remember 1-800-273-8255?
virginia	smith	sunrise	FL	UNITED STATES	AND STOP ALL THE HATE AND TERROR THAT WE ARE TEACHING IN THIS COUNTRY
Barbara	Herman	Tamarac FL	FL	UNITED STATES	There should be a suicide hotline for those unfortunates who feel they could hurt themselves if no one is there for them.
Ellie	Meehan	VERO BEACH	FL	UNITED STATES	Please. We need this so much!
Sharon	Wistner	Winter Garden	FL	UNITED STATES	Three numbers seems like so little to ask to save a life!
Jennifer	Rice	Yulee	FL	UNITED STATES	This just makes good sense.
Freya	Harris	ATLANTA	GA	UNITED STATES	What kind of country are we when we can't prevent our veterans from dying by their own hands?
betty	almand	Avondale est.	GA	UNITED STATES	Simplify the suicide hotline with a three digit number.
Pam	Floener	Dacula	GA	UNITED STATES	This makes perfect sense. Like when an emergency occurs you dial 911, why can't we have a three digit number for suicide prevention. 411 for information, 511 for highway info, I don't think 711 is taken yet. I don't see any problem with it, do you?
Linda	Glatz	Griffin	GA	UNITED STATES	Simple number for a simple act of kindness!
Laurie	Sherer-Weinsier	Marietta	GA	UNITED STATES	There should be no debate on this. Make it simple for desperate people.

Alice	Carnahan	Marietta	GA	UNITED STATES	This could save thousands of lives! Thank you for your consideration of this request.
Linda	Godly	Nahunta	GA	UNITED STATES	This is needed and so simple.
Rayna	Hewitt	Snellville	GA	UNITED STATES	This would enable concerned family members make an emergency call as well. No need to search for the 'right' number.
Virginia	Bennett	Honolulu	HI	UNITED STATES	Making it easier for suicidal people to get help by talking to counsellors by simplifying the phone number to '111' could mean the difference of life or death to thousands. Sure we could do this!!
Gretchen	Howard	Kailua/Kona	HI	UNITED STATES	Excellent idea and greatly needed.
Christine	McDaniel	Ames	IA	UNITED STATES	Please simplify the suicide hotline by making it a 3-digit number!
Rachel	Wilhelm	Cedar Rapids	IA	UNITED STATES	This is a no-brainer. We can't stand back and watch other life be taken prematurely and not try to help. We need this hotline!
Kandy	Munson	Coralville	IA	UNITED STATES	I have a son with a mental illness and this would be so helpful to have...just in case. Thank you.

His suicide triggered deep depression in my daughter. Make it easier to reach out!
Cheryl	Kallenbach	Winchester	ID	UNITED STATES	I can't think of any reason you would not want to do this.
A	R	Amboy	IL	UNITED STATES	This should be a #1 priority!
Lgina	Deaver	AURORA	IL	UNITED STATES	I am a veteran and I support this bill.

priscilla	williams	Topeka	KS	UNITED STATES	My husband had PTSD, my grandchild has autism. Both conditions have a high chance for suicide due to misunderstanding of communication, sensitivity to stimuli, and that fact that bullies target those who are perceived as 'different'. Janet	Nirenberg	Holliston	MA	UNITED STATES	This is such a good idea, but after it happens there must be a lot of PR.
Dennis	Vieira	North Dartmouth	MA	UNITED STATES	I am a disabled veteran who suffers from PTSD. Back when I was discharged from the service in 1985, and was denied veterans compensation because it was deemed I had a 'pre-existing condition, (I was in fact a victim of sexual harrassment while serving in the U.S. Navy ), three months out of the service, I was in the throes of anger and depression, and actually contemplated suicide. -When I told my mother how I felt, she didn't realize how serious I was. Her response was just: 'Dennis think about the good things'. She made no attempt to call any one or get me intervention help immediately. If not for the fact that realizing I was not afraid of dying for the first time in my life scared the hell out of me. I might very well had attempted suicide. Instead I sought out professional help with a state agency.

Carolyn	Starrett	Winchester	MA	UNITED STATES	We need a suicide-prevention hotline - it will save lives!
Lynne	Clark	WORCESTER	MA	UNITED STATES	Since Emergency communication has been simplified to '911', I feel suicide hotlines should be too.

					A simple 3-digit suicide hotline is a wonderful idea! Sometimes when a person is contemplating taking their life, having someone to listen to them and give them hope could save a life--and then connect them with properly trained follow-up. It is a simple, yet significant assistance. An 11 digit number is ridiculous! It must be easy to remember and as familiar as 911, 411, so that a person doesn't have to remember a long difficult number, when they are not thinking sensibly and clearly. '111' sounds good. Mental illness/depression is a major problem, globally. The least our country can do is try to help those that are suffering. Young people, seniors and service personnel are at high risk for suicide--yet, it can happen to anyone. We should be doing much more to help them.

jan	I.	WARREN	MI	UNITED STATES	Please - this is a wonderful idea. Too often, even in call the VA for benefit info [the entire gamut is on their telephonic menu carousel of push-button options] ... and one is on hold for so very long, a person needing encouragement and help and understanding or counselling, should NOT have to bear a 20-minute wait. Please find the funds available to support the added 3 or 4-digit number to instantly be connected to a qualified counsellor. Too many teens and Vets are taking their lives. Even ONE is too many, and the effects on the family survivors are horrific. PLEASE help. Thank you
Kimberly	Bauer	FERGUS FALLS	MN	UNITED STATES	I have a suggestion for the code: 999; there is no U.S. area code, nor global country code, assigned to this number as it has been set aside for something 'important' globally - I would call this (VERY) important! (111 is so close to 911, 411, 511, etc., and I know it follows the format, however, I don't want anyone accidentally getting the wrong help-line and possibly not trying again.)
Diane	Lindberg	Finland	MN	UNITED STATES	it's a simple easy way to try and help people who need it

John	Culp	SAINT LOUIS	MO	UNITED STATES	Let's do everything we can to help our suffering war veterans!
Elizabeth	Tootle	Biloxi	MS	UNITED STATES	We have 3 digit numbers to get help quick for just about all emergencies so I feel this too should have the same. People are not in their right frame of mind if they are contemplating suicide or whatever and to remember the long 800 numbers just might be a bit much but a well known 3 digit I think is more than likely easier to remember and save a life!! Great idea!!

Jacalyn	Strouble	Pittsboro	NC	UNITED STATES	This seems like a reasonable request, from someone with firsthand knowledge. I can imagine being in such a desperate situation. If 411 brings information and 911 brings emergency responders, why not have another 3 digit number that brings aid and comfort to someone on the verge of despair? It might just save lives. How simple is that?
Cathy	Stewart	Raleigh	NC	UNITED STATES	Thank you for starting this petition.

Andrea	Gurnicz	Belle Mead	NJ	UNITED STATES	It would be amazing to see the FCC change the suicide-prevention hotline to a three-digit number. This matter is so important - just as important as dialing 911 in case of emergency, people should be able to call a three-digit number when their own life is at stake.

Gail	Belluardo	Parsippany	NJ	UNITED STATES	When someone is feeling suicidal, they do not have the presence of mind to call for help especially to hotlines which have different phone numbers. Maureen	Neville	Trenton	NJ	UNITED STATES	This idea of a suicide-prevention hotline is a good one. This would be a much needed lifeline of help to people who are very despondent and thinking about killing themselves yet don't want to burden their own loved ones. Sometimes having another person who is outside the depressed person's immediate situation listen and gently advise can be the perspective that helps change a depressed person's mind.

Patricia	Garoutte	Grants Pass	OR	UNITED STATES	Let's get behind what the veterans want and need to save lives! It can be done if we persevere! Make it easy and simple for them to get the help they need when they need it. period!
Jim	Woods	Grants Pass	OR	UNITED STATES	This is a great idea and a good example of the power of simple approaches.
steve	dreben	jacksonville	OR	UNITED STATES	This must be done; as an x-Asist trainer I think the 111 is an absolutely necessary item!
Jack	Duggan	Jacksonville	OR	UNITED STATES	We are failing our veterans and should do everything we can to help them. A Viet vet.
Ivend	Holen	Medford	OR	UNITED STATES	Anyone who has undergone serious trauma, as well as many teenagers, is at increased risk of suicide, . We all need to help them all we possibly can when they are hurting the worst - and making help more easily available would be a positive step.
Daniel	Guy	Medford	OR	UNITED STATES	As a former army officer who believes I have a continuing duty of stewardship for the men and women who serve our nation, I fully support this proposal!
Christine	Lachner	Medford	OR	UNITED STATES	Fantastic Idea! Easy, straightforward and a number everyone would remember.
Peggy	Smith	Medford	OR	UNITED STATES	This is a smart idea and one that can really save lives!
Ashley	Cay	Medford	OR	UNITED STATES	This is so, extremely important - please review it!
Gwen	Jameson	Philomath	OR	UNITED STATES	This could be a great tools to head off tragedies!!!!

Rozlyn	Reynolds	Portland	OR	UNITED STATES	A realistic bandage since a country full of patriotic people can't seem to make veterans, who are the true patriots, our number one concern! Thank you.
Joanie	Lingle	Portland	OR	UNITED STATES	Please...
Linda	Smith	Rogue River	OR	UNITED STATES	This is a common-sense idea that would surely help a lot of people.
Karly	Lusby	SISTERS	OR	UNITED STATES	What a wonderful idea!!
Kimber	Toukdarian	Sutherlin	OR	UNITED STATES	It makes sense, and the U.S. could be in on the bottom floor of a sensible addition for an emergency number. Suicidal people are NOT going to call 911, so a number like 111 for a suicide help line makes sense!
Tana	Domecq-Davis	Talent	OR	UNITED STATES	What more needs to be said!
Vivianne	Mosca-Clark	Williams	OR	UNITED STATES	Try it out...it can not hurt. It is hard to think when your in crisis.
Butch	Conver	Conestoga	PA	UNITED STATES	I went thou depression and suicidal thoughts before and I think it would be a great idea.
Ruth	Becker	Cranberry Twp	PA	UNITED STATES	Three digits might save hundreds of real people with real digits.
Richard	Shubert	Erie	PA	UNITED STATES	Justice Now!
Joan	Zdun	Essington	PA	UNITED STATES	I agree with Daniel, we need a simplified number for when in crisis. I lost my 22 yr old son to suicide and if this could help even 1 person it is well worth it.
Shirley	Plowman	GETTYSBURG	PA	UNITED STATES	Lets take a stand in this project for all American citizens, we aren't doing much about climate control but we Can do something Now about this problem--lets all work for all American citizens while we still can.
Julie	Jensen	Hazleton	PA	UNITED STATES	Suicide is a tragic kind of cancer of the soul that needs an easy 3 digit number to call. Hope is a powerful!
Casey	McCarthy	Kimberton	PA	UNITED STATES	Universal single-payer government MEDICARE FOR ALL.
Eileen	Frey	Kresgeville	PA	UNITED STATES	This could help in a situation just like 911, Ive known people who have done this.
Lorraine	Grabauskas	Lemoyne	PA	UNITED STATES	Too many of our service members, those who decide to possibly make one of the highest sacrifices a person can make, are committing suicide. Something needs to be done to make it easier for everyone in this situation, civilians too, to get help.
Tanya	Wagner	MECHANICSBURG	PA	UNITED STATES	Whatever makes a tragic decision easier to stop is a good thing,
Neil	Angelo	PENN HILLS	PA	UNITED STATES	Please. Thank you.

Patricia	Dorfield	Pittsburgh	PA	UNITED STATES	As an RN I know that this is long overdue.
					Chairman Tom Wheeler, Federal Communications Commission, Please do whatever it takes to provide the Crisis and Suicide-Prevention Hotline with a three-digit number. When a person is in crisis, they will not take the time to look up and dial a long number. If a three-digit number is assigned, then veterans and others who are suicidal can quickly dial the number when they are in trouble. Do you have any idea how many lives this would save. The time to act is now before one more life is cut short!
Lisa	Miller	Pittsburgh	PA	UNITED STATES	Please act now!
Patricia	O'Kelley	Pittsburgh	PA	UNITED STATES	If suicide is preventible then we need to do whatever it takes to prevent as many as we can.
Ted	Pollard	St. Davids	PA	UNITED STATES	This is a HUGE problem, so we must help in every way.
Jeannine	Johnson	CRANSTON	RI	UNITED STATES	Save our 'Vets & Teens' they need a '3' Digit # Now !!
Sue-Rita	Goldstein	Pawtucket	RI	UNITED STATES	I think this is a terrific idea.
Margo	wright	Providence	RI	UNITED STATES	R.I.P. William Wright
Roy	Windmuller	Aiken	SC	UNITED STATES	I know 3 veterans who all suffer from PTSD and they are having a very difficult time getting help and that's not at all right.
Pamela	McAllister	Bluffton	SC	UNITED STATES	Make this happen! It's another way of saving lives. Just as important if not more so than the calls answered by 911.
J.M.	Ray	Central	SC	UNITED STATES	I feel that this could save lives.
catherine	spigner	columbia	SC	UNITED STATES	PLEASE, Create a three-digit number, for the 'National Suicide Prevention!'
Donald	Mccarter	easley	SC	UNITED STATES	we're losing to many children and veterans every day, please help with a 3 digit emergency crisis line.
Shelli	Schmidt	ABERDEEN	SD	UNITED STATES	This is such a brilliant idea & 1 that needs 2 happen. 20 veterans killing themselves everyday is not acceptable, we're simply not taking care of the needs of our soldiers & this has 2 change now.
Meg	English	Belle Fourche	SD	UNITED STATES	Mental Health is so tragic because it is so often overlooked. A simple three-digit number is simple and I believe will be very helpful! Brilliant idea!
Cathy	Flum	Vermillion	SD	UNITED STATES	It just makes sense. And if it can prevent suicides, the FCC should just do it.
Olivia	McLaurine	Cleveland	TN	UNITED STATES	Please create a 3-digit number for a Suicide Hotline! The need is great, especially for our young people!

Regina	Kendrick	Harriman	TN	UNITED STATES	Please help this urgent cause and all these people.
Tammy	Dillard	Lebanon	TN	UNITED STATES	This is close to my heart, I knew some people who committed suicide, knew some who tried to committed suicide and want to. I know my church does a suicide prevention prayer vigil on September 10th for past 2 years and it is a yearly event we hope to have from now on. We also offer education about suicide warnings and risks, how to help someone who is in need.
Ann	Harris	Memphis	TN	UNITED STATES	Having worked on a crisis hotline, I know how much sense this makes! The faster they can reach help the better! It might help them from changing their minds, to hang up, if they hear a voice there to help them ,quickly!
Sharon	Lyons	Nashville	TN	UNITED STATES	I've known too many who have committed suicide. I hope for a better way with the 3 digit number.
Brenda	Roberts	Old Hickory	TN	UNITED STATES	That makes a lot of good sense. When people are desperate a 3 digit number would be much easier to remember.
Kathy	Nichols	Amarillo	TX	UNITED STATES	I have PTSD from sexual abuse. I am bipolar. I am a veteran. I lost two people to suicide. I have been suicidal on many occasions. In that state one's mind is not clear. One certainly does not feel like hunting for a phone number when all one wants to do is die because it hurts to much to endure any longer. If one still has a small desire to live, a 3-digit number might give them a better chance at survival.
Donna	Charter	Arlington	TX	UNITED STATES	Certainly we should make it as easy as possible for our veterans to seek help!
Harry	Cleaver	Austin	TX	UNITED STATES	Anyone desperate enough to call the hotline shouldn't have to look it up. It should be as simple as 911, e.g., SUI or 784
Camilla	Freitag	Austin	TX	UNITED STATES	Please help.
Deborah	Lazarus	Caldwell	TX	UNITED STATES	As a suicide survivor, I can say this is a great idea. It might have helped my brother and cousin.
regina	ainsworth	Cedar Park	TX	UNITED STATES	great idea
Ellen	Oneil	Cedar Park	TX	UNITED STATES	Simplify the National Suicide Prevention hotline phone number please!
Katie	Werther	Dallas	TX	UNITED STATES	I lost my brother to suicide and this is a fantastic idea.

Janet	Julien	Dallas	TX	UNITED STATES	I've been close to suicide a number of times and looking up a 10 digit number when you're that low sometimes doesn't feel worth it. A simple three or four digit number would be a godsend to people on the edge.
Nerdy	Kitten	El Paso	TX	UNITED STATES	God bless you for starting this petition!
Jennifer	Palmer	Katy	TX	UNITED STATES	Please establish and promote this 111 to help people in crisis.
Marvin	Aaron	Kingsland	TX	UNITED STATES	What is more important than saving a life? If it's as simple as creating a life line as '111' what's preventing this from happening? You are well aware of the success of 911!!!!
maritza	heg	Laredo	TX	UNITED STATES	This is ABSOLUTELY URGENT !!!! Please, help is needed ! Thanks.
Jeannine	Smith	Longview	TX	UNITED STATES	Everyone needs someone to talk to, especially those suffering from depression to the point of despair. Give them a simple number to call. It could save a life!
Paige	Bentley	Lufkin	TX	UNITED STATES	To care for our valued Veterans, thank you for your time and attention to this detal.
Ali	Zimmer	MEDINA	TX	UNITED STATES	For someone in stress this could save their life. So small a change for the possibility of saving even one life and possibly many, many more.
sandra	Landrum	N Richland Hills	TX	UNITED STATES	PLEASE MAKE IT EASIER FOR THOSE IN CRISIS TO SEEK HELP!
LINDA	MCNEESE	Richardson	TX	UNITED STATES	I agree.
miriam	olsen	Rockport	TX	UNITED STATES	My youngest son ended his life at age 24.
Doreen	Stein	Salado	TX	UNITED STATES	This is important so persons in need of recognizing their value have a place to turn for help.
Tim	Duda	San Antonio	TX	UNITED STATES	Great idea!
J	Christensen	Salt Lake City	UT	UNITED STATES	It's more efficient
Stephen	Davis	Annandale	VA	UNITED STATES	People who put their lives on the line for us need to know that we have their back, regardless of how we view the policy which landed them in harm's way.
ROBERT	STRAIN	Arlington	VA	UNITED STATES	CaLL 111: Let's save lives right away! Please transfer to Call Center ASAP. It's right for so many reasons.
Kathryn	Fenn	Charlottesville	VA	UNITED STATES	I lost a family member to suicide. What a great benefit it would be to have a simple number to publicize for fast help to prevent suicide.
Patricia	Liske	Falls Church	VA	UNITED STATES	what a simple way to save lives

madolyn	Jenkins	fredericksburg	VA	UNITED STATES	Totally makes sense, three digits so much easier to remember especially when stressed!! !!
Nancy	Simpson	great falls	VA	UNITED STATES	Suicide prevention should be a major public health concern. Suicide affects not only the individual wanting to commit suicide, but their whole family, neighborhood, and circle of friends.
Carolynne	Stevens	RICHMOND	VA	UNITED STATES	A very sound proposal, but don't forget that it will require massive marketing for public awareness until it becomes fixed in the public's mind. Those most needing to remember it must 'overlearn' the number because they will not be functioning at their best when they most need it.
Meghan	Rise	RICHMOND	VA	UNITED STATES	I am an acute care psychiatric nurse who gives out the suicide hotline number for patients to take with them at discharge. Patients leave the hospital with papers full of multiple, complicated numbers to try and have available in case of emergency. Most patients end up calling 911 when they are feeling depressed and thinking about suicide. Having an easy number like this to dial in times of crisis would increase effective utilization of the hotline number and decrease unnecessary calls to 911 emergency services.
Betty	Marr	Roanoke	VA	UNITED STATES	Please do this. Many lives will be saved.
Elizabeth	Nunn	Cabot	VT	UNITED STATES	I lost my 22 year old son to suicide almost 6 years ago. Let's make this simple action happen so we can save lives. Thank you! Liz Nunn
Alison	Williams	Charlotte	VT	UNITED STATES	I LITERALLY clicked on this appeal just ONE MINUTE after reading a friend's email telling of her daughter's suicide attempt this week. ANYTHING which might prevent such news, such a sad statement, is worth trying.
Elizabeth	Halpin	Essex Junction	VT	UNITED STATES	been too close to too many suicides
Kate	Suchmann	Springfield	VT	UNITED STATES	Such a simple positive intervention - Do it!
diane	ferriter	Thetford	VT	UNITED STATES	People in need an easy # to remember when they are distressed. Trying to find a local help line is not always easy but tying the local line to an easy # like 111 would help distressed people who unfortunately can make rash decisions.

Deborah	Gilfeather	White River Junction	VT	UNITED STATES	Please change the number to an easy to remember one. I work with Veterans and when they are in a crisis they need to have this right there and easy to remember. To many beautiful people have gone from our lives. Lets help them get through it Now!
Marilyn	Overton	Edmonds	WA	UNITED STATES	Please make it easy for people in crisis to get the help they need. This is crucial.
Michael	Doolittle	Friday Harbor	WA	UNITED STATES	The tragedy of loosing so many Veterans who have lost hope of a better tomorrow is heart breaking... I support this '111' initiative for a suicide hotline
Darleen	Alkhalili	Kent	WA	UNITED STATES	NO ONE should ever feel like suicide is the only way out!!!
Eileen	Lamar	Lacey	WA	UNITED STATES	The Military is glorified with a lot of talk. It is a national disgrace that we ignore this problem. A 'phone call could really help and it is not a difficult thing to do.
Nancy E.	Thomas	Olympia	WA	UNITED STATES	Suicide devastates the remaining family members of all ages. Make getting help easier.
Polly	Tarpley	Poulsbo	WA	UNITED STATES	What a beautiful idea! Do it now!
Nataly	Roberts	Seattle	WA	UNITED STATES	I have lost a friend to suicide and it is devastating. Any chance to save a life is worth the effort.
Patricia	Anderson	SEATTLE	WA	UNITED STATES	People in crisis can't think straight any simpleton can figure out that the number is too long. a suggestion use the NUMBERS 1.888-SUICIDE IT EQUALS TO 1-888-784-2433 ( just a thought) simple deal, simple to remember.
Myrna	Lipman	Shoreline	WA	UNITED STATES	Seems like such a simple solution to try to prevent a heartbreaking situation from happening.
Fanette	Stewart	Spokane	WA	UNITED STATES	A great idea not only for VETERANS - but for everyone. If not all, PLEASE do it for veterans!
Janice	Vakili	vancouver	WA	UNITED STATES	at least add a 3 digit# to already existing numbers
Jan	Weisel	Woodinville	WA	UNITED STATES	You need to add an easy to remember number that goes directly to a suicide crisis hotline. Suicidal people need all the help we can give them so we can help save their lives and adding a simple 3 digit number is a simple but important step toward helping suicidal people from taking their lives.

Margaret	Wilson	Green Bay	WI	UNITED STATES	A three digit number to save someone's life? It is a no brainer. This country does so little to help those who suffer and contemplate suicide. This is a small but, a significant step, to reach those calling out for help. The FCC should do this.
Mike S	Goodman	MADISON	WI	UNITED STATES	Open CIA facilities for veterans in need of services!
K	W	Madison	WI	UNITED STATES	When suicide is the only solution to your troubles today, we need to connect now to tell you to hold on: we care - we can help. You are NOT alone.
Mary	Kunert	Plymouyh	WI	UNITED STATES	Two people dear to me committed suicide (there must be some other way to say that, committed sounds like they could help themselves) God is gentle with them. We are the tools He has here on earth to help them.
Leah	Dickson	Portage	WI	UNITED STATES	Make it easier to save lives!!
Marcia	Geiger	Waunakee	WI	UNITED STATES	Small change request= huge payoff for folk who need it.
Jan	McCall	West Bend	WI	UNITED STATES	This makes excellent sense. So how much, exactly, do we care about our vets and teens?
Dawn	Thoms	Wis. Rapids	WI	UNITED STATES	Police officers need more training when it comes to dealing with people who are suicidal.
Sara	Young	CRAIGSVILLE	WV	UNITED STATES	Wow is this ever IMPORTANT!!!
Robert	Stealey	Lost Creek	WV	UNITED STATES	It must be made as simple as possible for anyone contemplating suicide to get help by phone!
